

FOR IMMEDIATE RELEASE

**Amit D. Rikhy Appointed Vice President, Business Development of
Vancouver Airport Services**

Richmond, BC. (May 22, 2008): Vancouver Airport Services (YVRAS) announces the appointment of Amit D. Rikhy as Vice President, Business Development. Mr. Rikhy will report to George H. Casey, YVRAS' President and Chief Executive Officer, and will oversee the Company's business development activities, including the origination and execution of airport investment and management opportunities globally.

Mr. Casey commented, "We are pleased to have Amit in this role. While serving the Company in the capacity of Senior Director, Business Development, he has played a leading role in some of YVRAS' most significant investments and bids. Amit brings 20-years of experience and leadership, having worked with numerous major institutional investors and lenders, and having been responsible for successfully managing and executing projects in the airports sector. He is a welcomed addition to our senior management team."

Previously, Mr. Rikhy served as Director of Corporate Investments and Project Development for Airport Group International (AGI), an airport management and development and airline service company based in California. He also served as Vice President, Strategic Planning for Strategic Partners Holdings Ltd., an affiliate of STV Group, and as Vice President of Infrastructure Management Group (IMG), where he was responsible for airport project development, advising public and private-sector clients on airport privatization transactions and financial, economic and planning studies. Mr. Rikhy has also led a number of studies on aviation policy and airport development.

"YVRAS has developed a reputation as one of the pre-eminent investors and managers of airports worldwide. Airport investment and privatization is stronger than ever and given the recent addition of Citi Infrastructure Investors as a shareholder YVRAS is in even a stronger position for continued growth and value. I look forward to the opportunity and I am excited about the company's potential," said Mr. Rikhy.

About YVRAS

Vancouver Airport Services (YVRAS), a subsidiary of Vancouver Airport Authority, is North America's leading global airport investment, management and development company. In 2007, the YVRAS network of 18 airports generated total system-wide revenues of \$433 million. Its combined passenger traffic totaled more than 29 million.
